

Bio-Odor Control Panel

Indoor Air Purification System

The Bio-Odor Control Panel produces an antimicrobial that kills viruses and bacteria in the air and on surfaces while attacking odor causing substances. While sanitizers and disinfectants are types of antimicrobials, Bio-Safe technology is chemical-free and is an approved antimicrobial in both gas and liquid form making it safe and effective.

Effectively Treats:

- Bacteria
- Viruses
- Mildew
- Molds/Allergens
- Odors from Smoke
- Odors from Pets
- Odors from Food Preparation

FEATURES	BENEFITS
<ul style="list-style-type: none"> • Wall Mountable • Adjustable Timer • Energy Efficient • Germicidal Power of Triatomic Oxygen 	<ul style="list-style-type: none"> • Safe • Quiet • Air Sanitizer • Odor Oxidizer • Easy to Maintain
